### Inclusive future mobility

To make future mobility inclusive and accessible automotive practitioners and researchers need to understand the fundamentals of universal design. People from diverse backgrounds and levels of capability should be included in the design processes of future mobility services. That's the conclusion of a group of automotive researchers and they've come up with a framework to help. The framework helps designers ...

### Your Home guide - 6th edition

Your Home is in its 6th edition (2022) published by the Australian Government. It has a section on the livable and adaptable house. This guide is especially helpful for home renovations and modifications as well as new builds. The National Construction Code has introduced accessible features for all new housing in 2022 and the guide is yet to catch up.

...

### Autism workplace campaigns

Autism awareness campaigns have highlighted the socio-economic inequalities experienced by autistic people. A new stereotype has emerged from autism workplace campaigns such as autistic 'talent' and autism 'advantage'. The aim of these labels is meant to encourage employers to hire autistic workers. But what we really need is a universal design approach. A briefing paper from Queensland University of Technology ...

## Human rights video on ableism

The UN Convention on the Rights of Persons with Disabilities embraces human differences and disability as part of human diversity. People with disability have rights which must be respected, protected and fulfilled, just like everyone else. The UN human rights video on ableism explains succinctly. Ableism is based on a value system that assumes people with certain body and mind ...
